Comment. The bulk of the units of the 9th Loch Div is believed to make been at Schoenhoehe training grounds and in the kaserne of Drachhousen in early August. Although the JS-3 tanks do not belong to the 70th Mech Regt of the division but possibly to the 80th Cds Mv.tank SP Regt, major contingents of the 70th Mech Regt are thought to be in the Neue Kaserne south of Zossen.

Connent. The 14th Gds Mech Div, the 47th Gds Mech Regt and the 2497th AM Regt are still located in Jueterbog-Damm. The weapons possibly confirm the AAA regiment there up to 4 August.

Comment. The statement in paragraph 8 that units from Wittenberg 25X1 are stationed in Camp Werder-Markendorf is to some extent confirmed.

are stationed in Camp Werder-Markendorf is to some extent confirmed. Heside the unidentified tank training battalion, the unidentified motor transport battalion of the 6th Gds Tank Div is stationed in the Arado Plant in Wittenberg.

Comment. A medium tank regiment, presumably the 56th Gds Tank Regt, and the 287th Gds AAA Regt, both of the 7th Gds Tank Div, are located in Zerbst. Except for rear details, both units were still in the south sector of Letzling Heath in early August.

Comment. Other information indicated that only elements of the unidentified engineer regiment of the G.FG are quartered in the new camp south of the road. The 36th Pon Bridge Regt of the G.FG, which was previously stationed in the area so theast of Rosslau, has again been stationed in magdebur; since early August. The engineer units of the Eighth Gds Army, which had been identified in the area east of Aken up to July, were apparently transferred to their Thuringian billeting areas between 21 and 28 July.
